### Beloit Wide-Awakes.

A "surprise" visit to the republicans of Janesville was made by the Beloit wide-awakes last evening. They came with 115 torches, a full complement of officers, and a fine band of music, reaching this city in a special railroad train at 9 o'clock. They were received on the court house square and welcomed by J. M. Burgess, R. B. Treat and H. A. Palmer, esqs. After a brilliant display on the square and some admirable marching through several streets, the visitors were seated in the dining room of the American, and served with such refreshments as the hurried call upon the landlord would permit him to furnish. This repast finished, the line was again formed, and escorted by a body of our citizens, our Beloit friends proceeded to the depot, stopping in front of the residence of Judge Nogle, where the Judge and Mr. C. G. Williams gave them a cordial welcome, and where Mr. J. C. Converse, of Beloit, appropriately acknowledged the attentions they had received in Janesville. About half-past 12, the train started on its return to Beloit.

Although this visit was designed as a surprise, some of our citizens were aware of it; the reception and proceedings, however, were all impromptu, and were better enjoyed than if any formal preparations had been made. Our Beloit friends expressed themselves well pleased with their reception, and certainly the Janesville republicans had every reason to be gratified with their visitors. There has never been a display of any character here equal to it. The drill of the club has been thorough, its officers were "up" in all points of their duty, and the marching had the precision and excellence of a military organization. We were forcibly impressed, too, with the character of the members of this club. It embraced the leading and best citizens of Beloit,—men who are prominent in its business and its professions. They have given to the organization the benefit of their active co-operation, and stamped it with high respectability and moral worth.

We hope the influence of this visit will show itself in the effort now making to establish a similar organization in this city. Janesville can, if the republicans here will, establish a club which shall suffer no disparagement when compared with that of their friends in Beloit. Let an active effort be at once made, and let us merit at least a portion of the commendation they received when we visit Beloit next Friday.

**COMMITTEE MEETING.**—The committee on badges and banners, consisting of Messrs. Tallman, Young, Burgess, Resseguie and Kelle, will meet at the office of Geo. A. Young, esq., at 9 o'clock Monday morning. E. D. TALLMAN, Chairman.

**MASONIC.**—A special meeting of Janesville Chapter, R. A. M., will be held this evening at half past 7 at its lodge room.

**THE ANNUAL COMMENCEMENT** of Beloit College takes place next week. Persons in this city desiring to attend will find the order of exercises published in this day's paper. We hope a large number of our citizens will take this occasion to visit Beloit and attend the college commencement, as the exercises promise to be unusually interesting.

**BANNER PRINTING.**—Persons wanting any banner or other printing for the mass meeting in Beloit next week should order it immediately. A committee on printing has been appointed, but that committee need nothing, as a committee, except, perhaps, badges, or a banner or two that will look meagre enough unless there is something of a general display of them.

**WIDE-AWAKE MEETING.**—A full set of papers relating to the organization and discipline of the wide-awakes, and cuts of their uniform, have been received from Hartford, where this body of workers originated, and will be exhibited at the court room at the meeting to-night.

**A THROUGH TRAIN.**—We learn that an opinion prevails among some persons that the excursion train of the Congregational Sabbath School to Madison next week goes no farther than the Water Cure establishment. This is a mistake. The train will go through to the Madison depot, and the procession will be formed there to march to the capitol park, where the ceremonies and festivities of the day will be held. It is probable the train will stop at the Water Cure if any of the excursionists desire to leave it at that point, but the destination of the excursion is Madison city and the capitol park.

**NOTICE.**—There will be a special meeting of Rock River Engine Co. No. 1, at their hall, on Monday evening, at 8 o'clock.

G. S. STRASSBERGER, Foreman. S. FOORD, Jr., Secretary. Janesville, July 7th, 1860.

## Proceedings of the City Council.

REGULAR MEETING, FRIDAY EVENING, July 6.

Present.—The Mayor and all the Aldermen but Mr. Tallman. A petition of residents and property holders on Pleasant st., to repair and grade that street and lay sidewalks was presented and referred to the aldermen of the 1st and 4th wards.

James Armstrong, clerk of the board of education, asked time until the next meeting of the council to complete a report of the proceedings of that board and the condition of the public schools. Granted.

A petition of P. Smith for a license to sell liquors, and for a reduction from the license fee of a fine heretofore imposed on him for selling without a license was referred to the license committee.

The license committee reported in favor of a liquor license to P. L. Van Wagner.—Granted.

Communications were read from the chief engineer of the fire department and the mayor, representing that the engine of company No. 1 had been taken to Monroe on the 3d inst. to attend a celebration in that town on the 4th, against their orders, by a portion of the company; that the company was in a disorganized state, and recommending the disbandment of the company.

On motion of Ald. Pease, the communications were referred to the committee on fire department to make an examination into the matter, with power to send for persons and papers, and with instructions to report at the next meeting of the council.

On motion of Ald. Shelton, the aldermen from the 3d ward were added to the aldermen from the 4th ward in the proceedings to grade Bridge street at Monterey.

The mayor and city attorney were authorized to procure and execute the necessary bond to stay the proceedings in the suit of J. I. Spafford vs. the city, and the council adjourned.

### Club Meeting—Hoi for Beloit.

The adjourned meeting of the Janesville Republican Club will meet Monday evening, July 6th, at 7 1/2 o'clock, at the Court Room. Come one—come all. The reports of committees will be received and full arrangements for the visit to Beloit on the 13th will be completed.

R. B. TREAT, President. A. A. JACKSON, Secretary. ANOTHER NEW PAPER.—The Free Democrat understands that the "Farmer's Home League" have resolved to establish a paper of their own, and having employed an experienced editor, the first number will come out within thirty days.

**MORE COUNTERFEITS.**—Another counterfeit has been issued in Chicago, against which our merchants would do well to be on the look out. The notes are three upon the New Haven County (Conn.) Bank, and are described as follows: In the center a farm scene; right lower corner a female, "Three" above; on left lower corner, female with sheaf of wheat and "3" above. The bills are red tinted and well calculated to deceive.

**NEW ARRANGEMENT.**—Messrs. Lucas & Ashcraft, barbers, have formed a partnership, and now propose to carry on the business in as good style and at as cheap rates as any other establishment in the city.—They have raised their prices to coincide with other shops and the times. Customers wishing to shave by the month, can be accommodated in that way, which will be cheaper than paying each time. Positively no credit. Give them a call j7d3t

**FORECLOSURE BLANKS.**—We have on hand a full set of foreclosure blanks, from an affidavit for order of reference to a report of sale. The attention of attorneys is invited to them.

**CITY CLUB MEETING.**—The notice of the meeting of the club will be found in another column. We desire to see a general attendance of the republicans of the city.—The arrangements for going to Beloit will be completed and such other business transacted as will ensure a full delegation from this city.

**WIDE-AWAKES.**—The adjourned meeting will be held at the court room to-night, to complete the organization and transact other business that may be proper for the occasion.

**LIFE INSURANCE.** Those desiring this safe and cheap protection for their families can secure it in our Wisconsin company. It has already become, in reality, a safe institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.

While duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Consider that our money has been more than equal to that of the most "unrestrained," and we would cordially invite all our citizens to call at the office, southwest corner of Main and Wisconsin streets, and examine for themselves. S. D. DAGGETT, President. A. W. KILGORE, Secretary.

Messrs. Fitch & Hartlow, produce dealers, and Opt. Geo. S. Dodge will receive applications for insurance in this home company, and will also be happy to give information as to the condition thereof to any one desirous of being informed, in Janesville. ap15d4w

DOUGLAS ON DECLARATION OF INDEPENDENCE.

"We have heretofore published Lincoln's splendid eulogy of the Declaration. Here is what Douglas says about it.

"No man can vindicate the character, the motives, and the conduct of the signers of the Declaration of Independence, except upon the hypothesis that they referred to the white race alone, and not to the African, when they declared all men to have been created free and equal—that they were speaking of British subjects on this continent being equal to British subjects born and residing in Great Britain—that they were entitled to the same inalienable rights, and among them were enumerated life, liberty, and the pursuit of happiness. The Declaration of Independence was adopted merely for the purpose of justifying the colonists in the eve of the civilized world in withdrawing their allegiance from the British crown, and dissolving their connection with the mother country."

Here the "white race" is confined to British subjects on this continent at the time of the revolution. In the phrase, "all men were created equal," none others were included—according to Douglas. This looks like the exclusion of all the rest of mankind from a share in the great doctrine of the equality of political rights among men.

Mr. Lincoln took no such partial and contracted view of the great charter of our liberties. He believed that all men—every human creature, whether of European, Asiatic, American or African origin, have an equal right to life, liberty and the pursuit of happiness. That is the doctrine of republicans every where on the globe.

BOOTH ATTEMPTS TO MAKE A SPEECH FROM HIS PRISON WINDOW.—The Racine Journal has the following account of an incident which occurred in Milwaukee on the 4th of July: "Headlines were circulated in the forenoon of the Fourth of July, to the effect that Mr. Booth would speak to the crowd from his prison windows at the U. S. Custom House."

This had the effect to draw a large crowd around the Bastille of tyranny. Mr. Booth attempted to speak to them, but was prevented by the marines from the revenue cutter and others who had assembled to prevent him. Mr. Booth then dropped his speech—which had been written out—out of the window, and it was read to the crowd. The time was whiled away by the bandying of profane and vulgar epithets between the crowd and the U. S. officials, prominent among whom was the editor of the News, and other former free-soilers, who have crooked and fawned to slavery, and have received the best offices the demon had to give. The district attorney and the marshal were a couple of badly scared individuals, although there was nothing to be alarmed at.

In the contingency of a choice of vice president by the senate, the Madison Patriot thinks that republicans ought to prefer that Johnson should be returned rather than Lane. We do not think so. Johnson is an ultra southern politician—in favor of intervention by congress for the protection of slavery in the territories, and of the dissolution of the Union if that cannot be had. It is unreasonable to expect that a republican could ever vote for such a man for president or vice president.

The Beloit Journal and Courier, while protesting that no complaints were made of us in Beloit in relation to a notice of their meeting, in the same breath finds fault with us. This is a specimen of the fairness with which we have been treated in this matter, both publicly and privately.—All we have to say about it further is this: When the Journal changed editors we expected some degree of liberality and courtesy from that paper towards Janesville, and its newspapers, but we much fear, if this is a sample of the treatment we are to receive, that our hopes are not to be realized.

Kephart, the murderer of Mrs. Wallis and her children, near Fairfield, Iowa, an account of which we published yesterday, was taken from the jail on Tuesday last by about two hundred and fifty men, who quietly carried him to the place where the murder was committed, and there hung him.

The tug boat A. S. Field exploded her boiler about half-past 8 o'clock on the morning of the 6th, at Detroit, tearing the vessel to fragments, and instantly killing, as is supposed, four or five persons and severely injuring three of her crew. Several persons on adjacent vessels and wharves were also badly injured.

## Commencement Exercises.

The order of exercises connected with the annual Commencement of Beloit College will be as follows:

The baccalaureate sermon will be delivered by the president on Sabbath afternoon at 2 o'clock. Rev. J. I. Corning of Milwaukee will address the missionary society, at a quarter before 8 on Sabbath evening.

An address will be delivered by Hon. H. S. Orton of Madison, before the Archæan Union, on Tuesday evening at 8 o'clock.—These exercises will be held in the first Presbyterian church.

The Commencement oration, by Rev. S. Woolcott of Chicago, will be delivered on Wednesday morning at half-past 10 o'clock, on the college grounds.

The exercises of the graduating class, and the Master's oration, by Mr. William Montgomery of Madison, will occupy Wednesday afternoon, commencing at 2 o'clock.

The procession will be formed at the middle college at 10 o'clock on Wednesday morning, and at half-past 1 o'clock in the afternoon.

The Galena & Chicago Union railroad company have made arrangements to run special trains between Rockford and Beloit on Wednesday, the 11th, and on Thursday, the 12th. To accommodate attendees at the college commencement, a train will leave Rockford on Wednesday at half-past 7 o'clock, A. M., and returning, leave Beloit at half-past 9 o'clock in the evening.

To favor those who wish to attend the commencement exercises of Rockford Female Seminary, on Thursday, a train will leave Beloit at half-past 7 o'clock, A. M., and returning, leave Rockford at half-past 9 o'clock the same evening. Excursion tickets will be sold for one dollar each, covering fare both ways.

THE KIDNAPING CASE IN ILLINOIS.—Mr. J. E. Kingman, a citizen of Clinton, Ill., furnishes the Press and Tribune with additional facts in relation to the outrageous case of kidnaping, which recently occurred at that place. Several men from Missouri have recently made their headquarters at Askeon, near Clinton, and with the assistance of two men living at Askeon, concocted their plans for kidnaping negroes in that vicinity. They induced five of them to visit a public house, when they were set upon by eight or ten men armed to the teeth. Two of the most powerful of the negroes made a rush, and knocking down several of the ruffians, made their escape; the other three were pounded so severely on the head with pistols, overpowered, handcuffed, thrown into a wagon and driven off before any alarm could be given, all done in the space of ten minutes. One of the men carried off never was a slave, and one had been freed by his master; the third one had probably been a slave, and his master was one of the kidnapers. It appeared on the trial of five of the men engaged in this outrage, that this slave owner made a bargain with two men from Askeon, that if they would assist him to capture his slave, they would take as many more negroes as they could south, sell them and divide the spoils. They succeeded in getting three, who are now, probably, far down the Mississippi, on their way to a cotton or sugar plantation, with no hopes in the future but a life of bondage. It is affirmed by Mr. Kingman that the railroad conductor had an understanding with the kidnapers, and that the section men who work on the track of the Central railroad company for about fifteen miles, were in attendance, apparently, to aid the kidnapers. It is not astonishing that such an outrage could have been perpetrated in the center of a free state, when a great railroad corporation, and the willing tools in their employ, who appear to be more servile than purchased slaves, are ready to lend their aid. We trust the people of Illinois, (that portion of them who call themselves free,) will insist that the perpetrators of this outrage, and their aiders and abettors, shall receive the punishment due for their offence. Three of the kidnapers have been held to bail in \$500 each.

A HINT TO THE DOUGLAS MEN.—The Madison Argus, a Breckinridge paper, says: "Many of the Breckinridge men think it possible for Douglas to beat Lincoln in this state. The Douglas men claim that they can. It is doubtful for the interest of Breckinridge that Douglas should carry the state. Why not, then, take a sensible view of the question, inasmuch as we all want to beat Lincoln, and pursue such a course as not to break up the existing democratic organization?"

What course is that? Give the Breckinridge men a show on the county tickets, and refrain from reading them out of the party.

The people of Madison had a good celebration on the Fourth, which was never equalled in that part of the country. The printers were out in full force, and were a conspicuous part of the celebration.

THE PRAIRIE FARMER.—This excellent paper comes to us marked for an exchange. We cheerfully comply, and while we do so we wish to make one remark, which will apply especially to agricultural journals.—We are in the frequent receipt of papers of this kind asking for an exchange and a notice. In several instances we have given the notice, and that was the last we saw of the paper receiving the favor. It has become our habit to pay no attention to such requests, in consequence of the want of good faith displayed. We make an exception in favor of the Prairie Farmer, because it is published in a neighboring locality.—If any of our farmer readers want a good weekly agricultural journal they cannot do better than to send for this paper, which is published at \$2 per year. If they prefer a monthly, the Wisconsin Farmer is issued at Madison, at \$1 per annum, and cheap enough at that price.

The weather is intensely hot in S. Carolina and Georgia. The crops are materially injured.

Robert T. Lincoln, son of "Old Abe," who is a student at Harvard College, was announced to read the Declaration of Independence at Portsmouth, Maine, on the 4th of July.

## ALL SORTS OF PARAGRAPHS.

SALT MANUFACTURE AT GRAND RAPIDS.—The Grand Rapids Eagle says: "Every day when the salt manufacturing company drive their works they make about 100 bushels of salt. A scarcity of wood prevents them from driving their works as they otherwise would, and as they will in a short time."

On Tuesday morning the inhabitants of Haverhill, Mass., were unpleasantly moved by the sight of two effigies hanging to cords suspended across Main street. One of these was labelled "Caleb Cushing, a traitor to his country;" the other "George Johnson, false to his constituents, his country and his God." Their appearance caused considerable excitement, but at 6 o'clock they were cut down by an attaché of the post office department, very much to the annoyance of the Douglas democrats.

Gen. Houston's health is very poor. He now goes about on a crutch, because of lameness in one of his ankles—the effect of a wound received at San Jacinto.

Four of the democratic papers in New Hampshire will support Breckinridge, the 12th. The Portsmouth Gazette, the Dover Sentinel, the Concord Standard, and the Manchester Democrat.

APPLETON LOANERS' BONDS.—The question of bonding the city of Appleton in aid of the Northwestern railway, to an amount not exceeding \$20,000, has been fairly canvassed and decided as follows: For the issue of bonds, 209; against it, 9.

The fossil tooth of an anardivian shark, of mammoth size, has been found in Lower California. The papers report: It is 3 inches long, 4 wide, 1 1/2 thick, and weighs 13 ounces, and must have belonged to a shark not less than 50 feet long. The biggest teeth of the largest sharks now living do not weigh more than two ounces.

J. B. Card of Quincy, Ill., is the man who was murdered at Denver City, by one Frank Hadley, as reported by the last Pike's Peak news. The affair occurred on the 23d. Hadley stabbed Card, and he died next day. The murderer was immediately tried and sentenced to be hanged, but afterwards made his escape from jail, and is still at large.

Wheat-cutting has commenced in Genesee county, N. Y., and considerable harvesting will be done this week. Winter barley is also falling before the sickle.

Two Germans from Freeport were seriously hurt at Belvidere on the 4th by the premature discharge of a cannon. One had an arm shot off, and the other had an arm and a shoulder blade blown off. The latter was not expected to survive.

The London Field says that about 450,000 people were on the course during the "Derby day" at the late Epsom meet.

A Breckinridge and Lane electoral ticket will be started in Iowa. Hon. Laurel Sumners, of Le Claire, a leading democrat, is out for Breckinridge and Lane.

Senator Rice, Mr. Becker the democratic candidate for governor of Minnesota last year, Franklin Steele, Mr. Fridley and Mr. Edgerton have published a card declaring for Breckinridge and Lane, and appeal to the democracy of Minnesota to sustain them.

James Harkins, the murderer of Miss Morris, was hung at Mandeville, Va., on Friday last. He made a confession just before he was executed.

Alligator shoes are the style in Louisiana, made from the hide of the alligator.

A well defined layer of bituminous coal has been discovered at Owosso, Mich., a short distance from a railroad track, and the state geologist has given it as his opinion that a salt formation exists at the same place at the depth of about 400 feet. At Saginaw traces of coal oil have been discovered to the depth of seventy-five feet.

We have already stated that a human head, that had been severed from the body, had been discovered in Richmond Co., Ill. We now learn that an arm has also been discovered, adding to the excitement already existing.

When a man goes to New York with money in his pocket, and is "missing," it is very safe to smell a rat, for the tail will very soon stick out under the bushel. The Mr. Burns, of Rathboneville, N. Y., who went down with \$1,500 a week or two ago, and was supposed to have been murdered at the Erie railroad landing in Jersey City, (where his carpet bag was found with marks of blood on it) turns up in Florida. He sends word to his wife that he was spirited off "by robbers in a schooner." The particulars of this bold and most remarkable abduction are not given; but "where's the woman?"

Four children, while playing in the yard of a tenement house in 38th street, N. Y., on Monday, found a bottle containing a small quantity of blue ink, which they filled with water and then drank the contents, the poison making them very sick. Two have died, and the others are recovering.

WASHINGTON, July 6.

It has been finally decided to give Mr. Winston, administration democrat of North Carolina, the mission to Sardinia.

Judge Stanley, the district attorney at Cincinnati, who remained in the convention to which he was sent, and refused to follow Cushing and the rest of the seceders, is to be removed to-morrow or Monday.

Hill, who holds a similar district attorneyship in North Carolina, and like Stanley did not go out, shares also this fate.

The representatives of the Great Eastern have a conference here to-day, with some members of the National Union, to obtain a visit of the Levantian to that port.

The administration, had determined to transport the California paper mail by means of revenue cutters, co-operating with the Panama Railroad Company.

Secretary Cobb has offered to furnish the post-office department with the revenue cutters, as one of these steamers.

Another authority states that it is understood that an arrangement was concluded yesterday between the P. M. General and Com. Vanderbilt, whereby the mails are to be shipped from New York to California, three times a month until the 4th of March next. The mails for the Pacific will be despatched from this city by the steamer which sails on Wednesday next.

Private letters from official sources in England state that the Prince of Wales will go as far east as Portland and as far west as Cincinnati in the U. S.

ALBANY, July 7.

The rumor of the removal of Col. North, special agent of the P. O. department, is well founded.

NEW YORK, July 7.

REPELLO, July 7.

The republican ratification meeting last night was the largest and the most enthusiastic gathering of this campaign.

The Wide Awake, in uniform and bearing torches, made their first appearance in procession.

Hon. Owen Lovejoy of Illinois was made orator of the evening.

ST. LOUIS, July 7.

The Democrat learns from trustworthy sources from St. Joseph, that the new four story building in that city, owned and occupied by Nave, McCord & Co., wholesale grocers, fell at 2 o'clock yesterday morning, crushing a frame building adjacent, occupied by 3 families, killing 9 out of 10 of the occupants instantly, viz: Mrs. Boyce and three children, Mr. and Mrs. Cogswell and four others whose names were not ascertained. The building caught fire immediately afterward. The whole stock of Nave, McCord & Co. was consumed. The store of T. C. & Fainlight was also burned, together with the entire stock of boots and shoes. The total loss is estimated at \$200,000. Insurance unknown.

THE MARKET.

NEW YORK, July 7.

Flour receipts 2,712 bbls market shade firmer; sales 13,500 barrels, 3,205.30 super state; 5,204.55 super western; 3,450.50 common to medium extra western; 3,754.50 inferior to good shipping brands extra R. H. O. Canada flour without change. Rye flour steady, 3.50-4.20. Wheat market without change, sales 60,000 bushels, 1.23-1.31 Milwaukee club; 1.38-1.40 winter red western.

THE HARMONISTS DEMOCRAT IN OHIO.—The two democracies in Ohio had a hoisterous quarrel of it at their convention on Monday. L. W. Hall, ex-member of congress from the Crawford district, moved that every democrat should have the privilege of voting for either Douglas or Breckinridge, as he may see fit. This raised a tremendous uproar, and Mr. Hall was sided and quietly seceded, with 117 others, representing every congressional district in the state.

Hon. J. W. Brown of Wayne, formerly state senator from that district, was president, and Wm. A. Neil of Columbus secretary. Hon. George Fries, treasurer of Hamilton county, whose ability and respectability are known all over the state, was elected chairman of the state central committee. John Dawson is the committee man from Cincinnati.

A state central committee was appointed. Judge Belden, Judge Barchard, of Ashland, Col. W. D. Morgan, of Newark, Hon. R. Hutchesson, of Madison, Hon. L. W. Hall, of Crawford, and Wm. A. Neil, of Columbus, among others, were appointed a committee to prepare an address to the Ohio democrat. Twenty-five counties were represented. A state convention was called to meet at Columbus on the 2d Tuesday in August, to nominate a state and electoral ticket.

The brains of the democratic party are in the movement, and the leaders mean business. They claim 40,000 votes in Ohio. It is an egregious mistake to presume that federal officers only are interested in the rebellion.

NOAH'S ARK AND THE GREAT EASTERN.—The New York World makes the following comparison: We know of nothing that can stand comparison with Mr. Scott Russell's steamship, except Noah's ark; but even Noah's ark could not make it. Let us see. The length of the ark was 300 cubits, its breadth 30 cubits, and its height 30 cubits. The scripture "cubit," as stated by Sir Isaac Newton, is twenty inches and about sixty-two hundredths. Bishop Wilkins makes it somewhat more, nearly twenty-one inches and about sixty-eight hundredths. Reducing to English feet, and calculating the tonnage after an old but true method, we have approximately the following table:

Noah's Ark, according to Sir Isaac Newton, Great Eastern.

Length between perpendiculars 615.52 547 650

Breadth 61.55 54.7 65

Depth 21.16 61.70 83

Keel or length for tonnage 484.09 422.21 500.02

Tonnage according to old law 13,023 21,702 23,002

Noah's ark is quite overshadowed.

WIDE AWAKE.—The Albany Journal says that they are to have 10,000 Wide Awakes, armed and equipped in that city within thirty days.

## Correspondence of the Chicago Press and Tribune.

From Pike's Peak.

June 19th, 1860.

MESSRS. EDITORS:—In my last I stated that the South Park was about twenty-five miles long by ten to fifteen wide. I find by actual travel that it is much longer and in some places much wider, and the information I had at my last writing was entirely wrong. The park is at least seventy-five or eighty miles long, with an average width of about fifteen miles.

Of the mines upon the Arkansas I have learned enough to satisfy myself. I don't think the prospect there at all good for new comers. In California Gulch some claims are paying largely, but as in all other places I have yet visited, a large majority are not working, and many more scarcely pay decent wages.

The climate is bad, worse even than here, for the Arkansas runs for a large part of the year, and probably the year round, covered with deep snow. The water is always cold and uncomfortable to work in, and at best, but during a small portion of the year can mining be successfully prosecuted.

The discoveries as yet are confined to a comparatively small region, and unless more and richer diggings are speedily developed, thousands now in the valley of the Arkansas will return poorer than they came, and have cause to regret, deeply regret, the day they ever strayed thither on a gold hunt.

"Of the climate of this Park" I have already spoken, but I cannot say enough to properly describe it, or to set out its utter meanness and dreary nature. Buds on the poplars and willow trees along the little streams are just beginning to burst, and the timid, tender leaves seem hesitating as to whether they shall put forth to be nightly nipped by the hard frosts which prevail or return to original sap, and seek the roots of the parent tree, deep in earth.

Frost conveys no adequate idea of the coldness which prevails here every night—it freezes, freezes hard, and as I write, although the sun is shining brightly, and over round mountain for several hours, still remains over the entire surface, and will too, till after noon.

The days are tolerably warm and pleasant from 10 o'clock A. M. till near sundown, and for a few hours during the middle of the day the sun seemed to burn, and blister and portion of the person exposed while in the shade at the same time is chilly.

The mines along the streams in this immediate vicinity are very poor indeed, scarcely worth working. I don't know of a claim about here which really pays for working, when you consider the time it takes, and the hardships to be gone through with to get here and get at work on a claim, though in some they are talking out considerable sums.

What the future may do for this dreary, cold region, called the "South Park," remains to be seen. Leads may be struck which may make mining profitable here, but the prospect is not very bright, and as yet, I could never advise a friend of mine to come here thinking to better his fortune pecuniarily whatever it might be there.

I regret exceedingly that my report of the Park must be so unfavorable. I had hoped to find here a country where miners could thrive, be comfortable, and grow rich, but from their lean, and often ragged looks, my own experience and observation added, enable me to say this is no place for myself or my friends.

I am, however, and write this for that reason—for had this been a paradise I could not have stayed longer than I shall—and what I have said has been with a sincere desire to tell things just as they are—to tell the whole truth and to mislead no one.

Yours truly, J. D. WARD.

TREATMENT OF BOOTH.—The Free Democrat publishes the following:

REFUSED ADMITTANCE.—We learn that Mr. Salah Booth, father of S. M. Booth, came into the city to-day from a distance of a hundred miles, and was refused the privilege of seeing the prisoner in the U. S. Bastille. The father had not seen his son for over a year. No comments upon such an act of despotism are necessary.

A SMALL ACT OF DESPOTISM.—On Tuesday last Mr. G. W. Church, the strawberry-man, visited at present Mr. Booth's box of his new strawberries, and accordingly marked a box for him and took them up, but the guard told him that the marshal had forbidden his taking in for Mr. Booth any such presents. Mr. Church accordingly sent the box to this office, together with his compliments to the kidnapers at the custom house. The present administration and its officials can be guilty of wiser things.

Such acts of meanness on the part of the keepers of the Milwaukee Bastille, show that they are fit tools of the administration.

The Baltimore Republican declares for Breckinridge. "It is a matter of deep regret," it says, "to feel that we are to battle with a powerful foe, while our own forces are divided. But we shall do our duty, and leave the results to that overruling Providence who can evolve light out of darkness, and give the victory to those who will best support the principles of his government." This means that Lincoln will be elected.

The Newark Evening Journal comes out for Breckinridge and Lane, who, it says, are preferred by a large majority of the democrats of New Jersey. The Journal thinks the Douglas men in that state ought to support the seceders' candidates, under pain of seeing both factions beaten by Lincoln.—No doubt.

THE GRAIN.—On Thursday last we took a trip over the railroad to Janesville. The grain along the line all looked most beautiful. Never have we seen so fair a promise for a bountiful harvest. On Saturday we returned home. During this time, there had been a storm of wind and rain. Much, very much, of the grain lay prostrate. We fear that many pieces of that that has fallen will be entirely worthless. The straw is so matted and the growth so rank, that the prospect for its ripening is poor indeed.—Marston Star.
